As a Quaker, I want to protect the rights of people with speech disabilities. Everyone deserves basic human rights.

--Operators need to stay on the call long enough to get used to the way the PERSON with a speech disability talks.

~Operators should tell callers that everything is confidential.

~People with a speech disability need an easy way to reach Speech-To-Speech.

~The FCC must stop people in jails from abusing STS.

~More people with speech disabilities need to be taught to use STS.

~All these statements also apply to people who use STS on the computer (IP-STS).

~STS should be a national service; also there should be competition, as that makes STS work better.

~The operators need to be paid enough so that they do a good job, and they need good training.
